KT5

The KT5 is the ultimate in everyday electrical tools, including all modes of voltage detection and an open jaw current measurement capability which enables you to detect open PEN situations.

Voltage Detection:

- Non contact voltage test – the first line voltage indication when approaching metal cabinets.
- Single pole voltage detection on either probe for added safety and removes the ambiguity of non contact detection methods.
- Two pole voltage detection with permanent GS38 probe tips. This means there are no covers to lose or restrict you in deep reach terminals typically found on devices such as RCBOs.

The NCV function has three sensitivity levels which give you ability to trace hidden cables.

The probe tip cover comes with a nose to depress the earth pin in traditional UK BS1363 socket outlets.

£195.00

KEWISO5

This kit contains everything you need for safe isolation.

- KT5
- KEWPROVE3 Proving unit
- KEWLOK - Universal lock off device with warning labels
- User ready carry case

SPECIAL BUNDLE PRICE
£1195.00

KT66EV

The markets ultimate EV testing solution

Complete with the KT66DL and KEWVSE testing adapter, this bundle provides you with a comprehensive kit for all installation testing especially those with electric vehicle charging points.

Contact your local BEW branch for these great offers!

KT66DL

£985.00

12-in-1 multifunction tester is the ultimate tester, with EV testing capability. Engineered with a pioneering sophisticated loop testing system, including 3 & 2 wire low current test options and a comprehensive RCD testing facility complete with EV charging point test capacity, the KT66DL has it all.

CONTINUITY

20/200/2000 Ω range
200mA / 15 mA
Switchable buzzer
Auto null

INSULATION

100/250/500/1000V
Bar graph
DAR / PI
Full discharge indication

Hi CURRENT LOOP

25 A 0.001 Ω range
6 A 0.01 Ω range
55 V – 500 V systems
Auto-null of test lead

Lo CURRENT LOOP

3 wire 0.01 Ω range
2 wire 0.01 Ω range
2 X EV 3 wire 0.01 Ω ranges
Max Zs tables

PSC

2000 A / 20 kA
PSC / PFC dual display
Voltage & Hz display

PFC

2000 A / 50 kA
PSC / PFC dual display
Voltage & Hz display

RCD

Type AC, ACS, A, AS, & F
EVSE: Type B, EV & 6mA
RDCD Auto / manual options
& UC value

VOLTS

TRMS 2 – 600V
L-PE, L-N, N-PE
Frequency

EARTH RESISTANCE

3 wire
2 wire
Live circuit warning

SPD

1000 V range
Bar graph
AC & DC breakdown result

PHASE ROTATION

Clear indication
L1-L2, L2-L3, L3-L1 voltage
Frequency

PAT

Continuity
Insulation

KEWEVSE

The KEWEVSE is our brand new comprehensive testing adapter for the testing of EV charging points. The adapter is compatible with the KT66DL and other brands of tester with EV capabilities.

This intelligent adapter has also been cleverly designed to be the smallest in class and has a handy carry bag included.

- Enables testing of EV charging points
- PE Pre-Test
- PP simulation & CP states A, B, C, D
- CP Error / PE Error/ Earth fault
- LED indication of Phases

£350.00

The KT65DL Black Edition Same great features...brand new look!

8-in-1 Industrial MFT with earth resistance

- Continuity – switchable buzzer and auto null
- Insulation – 250, 500 & 1000V with voltage warning LED
- Loop – ATT (low current), high current 0.01 & 0.001Ω resolution
- Phase to phase loop test & 55V loop test for CTE transformers
- PSC / PFC – clear indication of what is being tested
- RCD – Type AC, Type A, selective auto & ramp
- Auto RCD tests with results all on one screen
- Phase rotation
- Earth resistance
- Test probe with remote test button

£695.00

KT63PLUS

9-in-1 Commercial MFT with phase rotation.

- Continuity – switchable buzzer and auto null
- Insulation – 250, 500 & 1000V
Loop – ATT (low current), high current 0.01 & 0.001 Ω resolution
- Phase to phase loop test & 55V loop test for CTE transformers
- PSC / PFC – clear indication of what is being tested
- RCD – Type AC, Type A, selective, auto & ramp
- Auto RCD tests with results all on one screen
- Phase rotation
- Test probe with remote test button
